in hongquannguyen96
📍 Hoc Mon, Ho Chi Minh City

I'm a full-stack developer with over 3 years of experience in MEAN Stack. I am able to work well with coworkers, connect to customers to communicate their software needs and possible solutions. I place the value of service quality on top of our priority. Besides, I enjoy learning new technologies as well as share with others. I'm looking for an opportunity to contribute my ability to your company and upgrade myself

WORK EXPERIENCES

Full-Stack Developer   Ant-tech | Aug 2017 - Present

- This is the first company I joined, where I learned everything related to Javascript .
- Worked directly with the customer to understand the requirements of the project
- Developing and maintaining the frontend and backend functionality of websites
- Contribute to release project
- Support new team members, giving a solution, reviewing team members codes.

PROJECTS

Vidole Books   May 2020 - Present

Vidole-Books is a book selling website where users get their favorite books by customizing categories (skin color, hair, clothes, glasses, etc.) with a variety of adventures available.

My responsibilities:

- Work directly with the France customer to understand the requirements of the project and finalize its scope as well as help them in changing requirements.
- Design and implement the backend
- Support teammates on font-end
- Domain + email management
- Setup web-app and web-admin
- Parse psd using Python
- Convert HTML (including text and images) to high quality PDF
- Implementation of payments using Stripe 3D

Technologies in used: NestJs, MongoDb, Angular 10, Nginx, Gitlab CI/CD, Docker/Docker-compose, Certbot, Stripe

Tadi   Sep 2019 - Sep 2020

Tadi is the website for creating/submitting surveys and helping analyze the results of your campaigns. With different graphics and filters available, to get a simpler overview of customer feedback analysis.

My responsibilities:

- Played full-stack developer role, joined in whole project
